4. OWNER WISE ANALYSIS

Number of Cars by Ownership

Total Selling Amount by Ownership (in ₹ Crore)

INSIGHT

First-owner cars achieve the highest sales volume and selling value.

BUSINESS RECOMMENDATIONS

Focus on stocking diesel, manual transmission, and first-owner cars.

Prioritize 3-8 year old vehicles, as they show highest demand.

Use pricing strategies similar to the successful 2017-2018 period.

Implement dynamic pricing based on age, ownership & fuel type.

Leverage ML models to predict car prices and optimize business decisions.

FINAL CONCLUSION

The analysis shows that 2018 had the highest number of car sales, while 2017 generated the highest total selling amount. Diesel cars, manual transmission vehicles, and first-owner cars dominated the market by achieving both the highest sales volume and the highest total selling value.

KEY TAKEAWAY

Right Inventory + Right Strategy = Higher Sales & Profitability
